ELSEVIER

European Journal of Operational Research 109 (1998) 703–705

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

Contents Volume 109

1 Balancing U-lines in a multiple U-line facility
J. Miltenburg

24 Decomposition of unreliable assembly/disassembly networks with limited buffer capacity and random processing times
S. Helber

43 Scheduling in robotic cells: Complexity and steady state analysis
N.G. Hall, H. Kamoun and C. Sriskandarajah

66 Some results of the worst-case analysis for flow shop scheduling
C. Smutnicki

88 A tabu search approach for the flow shop scheduling problem
M. Ben-Daya and M. Al-Fawzan

96 Reduction of job-shop problems to flow-shop problems with precedence constraints
A. Guinet and M. Legrand

111 A modelling study of the effects of continuous incremental improvement in the case of a process shop
A. Chandrashekar and T.E. Callarman

122 Lead time selection and the behaviour of work flow in job shops
S.T. Enns

137 Benchmarks for shop scheduling problems
E. Demirkol, S. Mehta and R. Uzsoy

142 An adaptive TS approach to JIT sequencing with variable processing times and sequence-dependent setups
F. Kolahan and M. Liang

160 Random sequencing jobs with deadlines problem: Growth of the optimal solution values
K. Szkatula

170 A capacity allocation problem with integer side constraints
L.B. Toktay and R. Uzsoy

183 Economic reorder point for fuzzy backorder quantity
S.-C. Chang, J.-S. Yao and H.-M. Lee

203 Economic production quantity for fuzzy demand quantity and fuzzy production quantity
H.-M. Lee and J.-S. Yao

212 Optimal joint pricing and lot sizing with fixed and variable capacity
D. Kim and W.J. Lee

228 Comments on: A comparative analysis for determining optimal price and order quantity when a sale increases demand
P. Joglekar and P. Lee

243 Editorial: Decision Support Systems, Groupware, Multimedia and Electronic Commerce
J.P. Brans and M. Despontin

248 The new challenges of management in a wired world
M. Theys

264 Using OPTRANS object as a KB-DSS development environment for designing DSS for production management
M.R. Klein and R.W. Grubbström

286 Efficient solutions to the cell-formation problem with multiple routings via a double-loop genetic algorithm
M. Gravel, A.L. Nsakanda and W. Price

299 Modelling and simulation of a supply chain in an uncertain environment
D. Petrovic, R. Roy and R. Petrovic

310 A decision support system for power plant design
F.C.C. Dargam and E.W. Perz
321 A hybrid three-stage flowshop problem: Efficient heuristics to minimize makespan
F. Riane, A. Artiba and S.E. Elmaghraby
330 A decision support system for urban waste management
P. Haastrup, V. Maniezzo, M. Mattarelli, F.M. Rinaldi, I. Mendes and M. Paruccini
342 Integration of the human operator into responsive discrete production management systems
D. Trentesaux, N. Moray and C. Tahon
362 A system to support the enhancement of strategic flexibility in manufacturing enterprises
D.H.R. Price, R. Beach, A.P. Muhlemann, J.A. Sharp and A. Paterson
377 A formal modelling of control processes
R. Dindeleux, L. Berrah and A. Haurat
390 A hybrid intelligent system for predicting bank holding structures
R.R. Hashemi, L.A. Le Blanc, C.T. Rucks and A. Rajaratnam
403 A multiattractor model for the dynamic control of companies
P.L. Kunsch and A. Chevalier
414 An architecture for knowledge evolution in organisations
F. Barthelmé, J.-L. Ermine and C. Rosenthal-Sabroux
428 Combining multicriteria decision aid and system dynamics for the control of socio-economic processes. An iterative real-time procedure
J.P. Brans, C. Macharis, P.L. Kunsch, A. Chevalier and M. Schwaninger
442 System dynamics of euthrophication processes in lakes
M. Vezjak, T. Savsek and E.A. Stuhler
452 A systems approach to identifying decisive information for sustainable development
K.L. Kelly
465 Confrontation analysis as a diagnostic tool
P. Bennett
483 Design and implementation of a group DSS for sustaining renewable energies exploitation
E. Georgopoulou, Y. Sarafidis and D. Diakoulaki
501 Tentative guidelines to help choosing an appropriate MCDA method
A. Guitouni and J.-M. Martel
522 An interval version of PROMETHEE for the comparison of building products' design with ill-defined data on environmental quality
J.F. Le Téno and B. Mareschal
530 Planning the evolution to broadband access networks: A multicriteria approach
C.H. Antunes, J.F. Craveirinha and J.N. Climaco

541 The direct marketing of insurance
K.P. Onn and A. Mercer
550 Forecast frequency in rolling horizon hedging heuristics for capacity expansion
S.M. Ryan
559 Identification of Pareto-efficient facets in Data Envelopment Analysis
U. Pitaktong, P.L. Brockett, J.R. Mote and J.J. Rousseau
571 Managing variances in manufacturing system design
I. Kim
587 Managing production with flexible capacity deployment for serial multi-stage manufacturing systems
Z.K. Weng
599 Analysis of the temporal decomposition procedure for scheduling with release and due dates
B. Rabenasolo, X. Zeng and M. Happiette
620 Flowshop scheduling with identical jobs and uniform parallel machines
M.M. Dessouky, M.I. Dessouky and S.K. Verma
632 Analysis and algorithm for the optimal investment times of new manufacturing technologies in a duopoly
K.-J. Chung and C.-S. Tsou
646 Joint demand fulfillment probability in a multi-item inventory system with independent order-up-to policies
W.H. Hausman, H.L. Lee and A.X. Zhang
660 Optimal cutting directions and rectangle orientation algorithm
A.M.C. Almeida, E.Q.V. Martins and R.D. Rodrigues

672 The line index and minimum cut of weighted graphs
S. Xu
686 A cell formation algorithm: Hypergraph approximation – Cut tree
L. Kandiller
703 Contents Volume 109
